## ABOUT LEGO DAY (LEGOPÄEV)

- LEGO DAY is a family event, where children can present their LEGO creations or collection. In addition, visitors can participate in various competitions and workshops etc.
- The organizer of the LEGO DAY is Estonian LEGO Users Group and Kolga School.
- Attendance is free for competitors. Each contestant or team can be accompanied by one adult free of charge. Participants will receive special hand straps on site.
- Tickets for visitors: Children's ticket costs 2 € and adults 4 €. Family ticket 10 €.
- Competing creations will be built from contestants personal bricks at their homes. On the day of the event all creations will be brought to the school for the displaying. Contestants have 1 hour to set up their builds on the presentation surface.
- Registration will take place starting November 10<sup>th</sup> 2018 on the event's website [www.legopaev.ee/eng](http://www.legopaev.ee/eng)
- Only pre-registered teams can participate in competition. **The number of places is limited.**
- More information about the event can be found at [www.legopaev.ee/eng](http://www.legopaev.ee/eng) and on the Facebook page: <https://www.facebook.com/Legop%C3%A4ev-275856626153386>
- Participation can be as a single member or as a team. Teams can have 2-4 members. By participating with the team, the creations become larger and more versatile.
- Teams can select a presentation area size between 50x65cm or 50x130cm. The special arrangement can further increase the displaying area. The size of the surface must be selected already when completing the registration form. Later, you can't make it bigger. The chosen build or collection must fit on the selected surface so that no part of it overlaps the borders. When choosing the size of the presentation area, be sure to not select too much space, because the number of places are limited and some children may not be able to participate in the competition.
- Each team will name their team and their entries. All this information will be displayed on the competing creation's name label provided by organizers. All competitors may be interviewed during the competition, during which they will be able to present their entries and team.
- Printed or drawn backgrounds may be used to make competing creations more interesting. However, it should not be forgotten that the jury evaluates predominantly competing LEGO build.
- The competing LEGO creation will be set up to display area by participants in the morning of the competition day and put together right after the end of the event. Removing work from the display during the competition is not allowed. Previously removed work does not participate in the evaluation.

- During the exhibition, the team itself is responsible for the completeness and well-being of its creation. Therefore, there should always be a team member or a parent close to the competing creation. If needed, the team can add labels to their work, asking visitors not to touch their creation.
- There will be volunteers on site, who keep general order and help participants if needed.
- All participants are respectful and attentive to the work of their competitors, doing everything they can to prevent unintentional and deliberate breaking of those.
- Each work will be labeled by the organizers with a name plate. Name plate contains information about the team, its members and work. Contestants can add printed materials to their work to help them open up the meaning and idea of their build.
- All works are judged by a 7-member international jury, and the audience also chooses their favorite. The judges appraise foremost the relevance to the chosen topic, originality, creativity and craftsmanship.
- Places are not shared. One main prize will be given out. In addition, various special prizes are awarded for outstanding works and also prize for audience favorite.
- More information about the event can be found on the website [www.legopaev.ee/eng](http://www.legopaev.ee/eng). You can also ask for information or assistance by phone +372 511 9614 or by sending mail to [info@legopaev.ee](mailto:info@legopaev.ee)
